The Fate of the New Man Claire McCallum,2018-07-03 Between 1945 and 1965, the catastrophe of war—and the social

and political changes it brought in its wake—had a major impact on the construction of the Soviet masculine ideal. Drawing upon a wide range of visual material, *The Fate of the New Man* traces the dramatic changes in the representation of the Soviet man in the postwar period. It focuses on the two identities that came to dominate such depictions in the two decades after the end of the war: the Soviet man's previous role as a soldier and his new role in the home once the war was over. In this compelling study, Claire McCallum focuses on the reconceptualization of military heroism after the war, the representation of contentious subjects such as the war-damaged body and bereavement, and postwar changes to the depiction of the Soviet man as father. McCallum shows that it was the Second World War, rather than the process of de-Stalinization, that had the greatest impact on the masculine ideal, proving that even under the constraints of Socialist Realism, the physical and emotional devastation caused by the war was too great to go unacknowledged. *The Fate of the New Man* makes an important contribution to Soviet masculinity studies. McCallum's research also contributes to broader debates surrounding the impact of Stalin's death on Soviet society and on the nature of the subsequent Thaw, as well as to those concerning the relationship between Soviet culture and the realities of Soviet life. This fascinating study will appeal to scholars and students of Soviet history, masculinity studies, and visual culture studies.

The Russian Orthodox Church Jane Ellis, 2016-03-29 The Russian Orthodox Church has survived more than seventy years of the most brutal and sustained attempts to eradicate religion that has ever been. Weakened but spiritually alive, it is confronted by the demands of a ravaged, exhausted society. Can it, however, find the resources and energy to respond to these demands? Jane Ellis describes the developments and problems in the Russian Orthodox Church under glasnost and especially since the new freedoms were granted following the millennium celebrations of 1988. New opportunities mean new challenges and demand huge new resources. Old problems in the form of close State and KGB contacts remain, and new problems in the form of competition from other denominations and sects arise. Traditionally the Orthodox Church has enjoyed a 'symphony' with the State. However are unhealthy links with the KGB and the communist past still damaging the Church. Is it in danger of becoming a state church?

[Building Communism and Policing Deviance in the Soviet Union](#) Mirjam Galley, 2020-12-30 This book examines, through a detailed study of Soviet residential childcare homes and boarding schools, the much wider issues of Soviet policies towards deviance, social norms, repression, and social control. It reveals how through targeting children whose parents could not or did not take care of them, as well as children with disabilities, the system disproportionately involved children from socially marginal and poor families. It highlights how the system aimed to raise these children from the margins of society and

transform them into healthy, happy, useful Soviet citizens, imbued with socialist values. The book also outlines how the system fitted in to Khrushchev's reforms and social order policies, where the emphasis was on monitoring and controlling society without the recourse to direct repression and terror, and how continuity with this period was maintained even as the rest of Soviet society changed significantly.

Perestroika From Below Judith Sedaitis, Jim Butterfield, 2019-07-11 This book represents the first comprehensive assessment of the world of social movements and collective action in the Soviet Union, and provides the information to expand our knowledge and potentially our comprehension of the dramatic processes taking place.

The Cloudspotter's Guide Gavin Pretor-Pinney, 2007-06-05 Now in paperback: the runaway British bestseller that has cloudspotters everywhere looking up. Where do clouds come from? Why do they look the way they do? And why have they captured the imagination of timeless artists, Romantic poets, and every kid who's ever held a crayon? Veteran journalist and lifelong sky watcher Gavin Pretor-Pinney reveals everything there is to know about clouds, from history and science to art and pop culture. Cumulus, nimbostratus, and the dramatic and surfable Morning Glory cloud are just a few of the varieties explored in this smart, witty, and eclectic tour through the skies. Illustrated with striking photographs (including a new section in full-color) and line drawings featuring everything from classical paintings to lava lamps, *The Cloudspotter's Guide* will have enthusiasts, weather watchers, and the just plain curious floating on cloud nine.

Changing Course Sarah Elizabeth Mendelson, 1998 In *Changing Course*, Sarah Mendelson demonstrates that interpretations which stress the impact of the international system, and particularly of U.S. foreign policy, or which focus on the role of ideas or politics alone, fail to explain the contingent process of change. Mendelson tells a story of internal battles where misfit ideas - ones that severely challenged the status quo - were turned into policies. She draws on firsthand interviews with those who ran Soviet foreign policy and the war in Afghanistan, and on recently declassified material from Soviet archives, to show that both ideas and political strategies were needed to make reform happen.

The Rise of Russia and the Fall of the Soviet Empire John B. Dunlop, 1995-04-23 This is the first work to set one of the great bloodless revolutions of the twentieth century in its proper historical context. John Dunlop pays particular attention to Yeltsin's role in opposing the covert resurgence of Communist interests in post-coup Russia, and faces the possibility that new institutions may not survive long enough to sink roots in a traditionally undemocratic culture.

Beyond the Color Line and the Iron Curtain Kate A. Baldwin, 2002-10-17 Examining the significant influence of the Soviet Union on the work of four major African American authors—and on twentieth-century American debates about race—*Beyond the Color Line and the Iron Curtain* remaps black modernism, revealing the importance of the Soviet experience in the formation of a black transnationalism. Langston Hughes, W. E. B. Du Bois, Claude McKay, and Paul Robeson each lived or traveled extensively in the Soviet Union between the 1920s and the 1960s, and each reflected on Communism and Soviet life

in works that have been largely unavailable, overlooked, or understudied. Kate A. Baldwin takes up these writings, as well as considerable material from Soviet sources—including articles in Pravda and Ogonek, political cartoons, Russian translations of unpublished manuscripts now lost, and mistranslations of major texts—to consider how these writers influenced and were influenced by both Soviet and American culture. Her work demonstrates how the construction of a new Soviet citizen attracted African Americans to the Soviet Union, where they could explore a national identity putatively free of class, gender, and racial biases. While Hughes and McKay later renounced their affiliations with the Soviet Union, Baldwin shows how, in different ways, both Hughes and McKay, as well as Du Bois and Robeson, used their encounters with the U. S. S. R. and Soviet models to rethink the exclusionary practices of citizenship and national belonging in the United States, and to move toward an internationalism that was a dynamic mix of antiracism, anticolonialism, social democracy, and international socialism. Recovering what Baldwin terms the Soviet archive of Black America, this book forces a rereading of some of the most important African American writers and of the transnational circuits of black modernism.

The Demise of the Soviet Communist Party Atsushi Ogushi, 2007-11-02 This book, based on extensive original research in previously unexplored sources, including the party archives, provides a great deal of new information on the disintegration of the Soviet communist party, in 1991 and the preceding years. It argues that, contrary to prevailing views, the party was reformable in late Soviet times, but that attempts to reform it failed: reforms succeeded in preventing the party interfering in the state body, and thereby abolished the party's traditional administrative functions, but without creating an alternative power centre, and without transforming the party from a vanguard party into a parliamentary party. It demonstrates that the party, having ceased to offer career paths for aspiring party members, thereby lost its reason for existence, that an exodus of party members then followed, which in turn caused a financial crisis; and that this financial crisis, and the resulting engagement in commercial activity, fragmented and dispersed party property. It shows how the failed coup of 1991 was led by the military rather than the party, and how having lost its reason for existence and its property, the party had no choice but to accept the reality that it was de facto dead.

The Great Terror Robert Conquest, 2008 The definitive work on Stalin's purges, the author's *The Great Terror* was universally acclaimed when it first appeared in 1968. Provides accounts of on everything from the three great 'Moscow Trials' to methods of obtaining confessions, the purge of writers and other members of the intelligentsia, on life in the labor camps, and many other key matters. On the fortieth anniversary of the first edition, it is remarkable how many of the most disturbing conclusions have borne up under the light of fresh evidence. --
