**I Lost 140 Pounds in a Year** Tim Weiss,2017-09-01 This book is about weight loss. I went on a diet last year, and I lost ten stone that's 140 pounds in one year. This book is not a diet book. It's a lifestyle change book. It's how I changed my lifestyle and how I ate my food and lost all that weight in one year.

**Digital Kenya** Bitange Ndemo,Tim Weiss,2016-11-18 This book is open access under a CC BY 4.0 license. Presenting rigorous and original research, this volume offers key insights into the historical, cultural, social, economic and political forces at play in the creation of world-class ICT innovations in Kenya. Following the arrival of fiber-optic cables in 2009, Digital Kenya examines why the initial entrepreneurial spirit and digital revolution has begun to falter despite support from motivated entrepreneurs, international investors, policy experts and others. Written by engaged scholars and professionals in the field, the book offers 15 eye-opening chapters and 14 one-on-one conversations with entrepreneurs and investors to ask why establishing ICT start-ups on a continental and global scale remains a challenge on the "Silicon Savannah". The authors present evidence-based recommendations to help Kenya to continue producing globally impactful ICT innovations that improve the lives of those still waiting on the side-lines, and to inspire other nations to do the same.

**Music and Gender in English Renaissance Drama** Katrine K. Wong,2013-05-02 This book offers a survey of how female and male characters in English Renaissance theatre participated and interacted in musical activities, both inside and outside the contemporary societal decorum. Wong's analysis broadens our understanding of the general theatrical representation of music, or musical dramaturgy, and complicates the current discussion of musical portrayal and construction of gender during this period. Wong discusses dramaturgical meanings of music and its association with gender, love, and erotomania in Renaissance plays. The negotiation between the dichotomous qualities of the heavenly and the demonic finds extensive application in recent studies of music in early modern English plays. However, while ideological dualities identified in music in traditional Renaissance thinking may seem unequivocal, various musical representations of characters and situations in early modern drama would prove otherwise. Wong, building upon the conventional model of binarism, explores how playwrights created their musical characters and scenarios according to the received cultural use and perception of music, and, at the same time, experimented with the multivalent meanings and significance embodied in theatrical music.

**Connecting Africa and Asia** Yoichi Mine,2022-04-19 By 2100, more than 80 per cent of the world's population is expected to live in Afrasia (Africa and Asia). This book draws lessons from history, provides a new cognitive map of the world, and discusses multiple challenges global citizens will face in the age of Afrasia, an emerging macro-region. The centre of gravity of the world is shifting. Whether the world can manage a soft landing into sustainable equilibrium depends on the nature of the dialogue people in Africa and Asia will organise. The author argues that a state of equilibrium between the two is achievable, provided issues related to gender, employment, agriculture, human-nature relationships, and multicultural coexistence are simultaneously addressed. Can future Afrasia present itself as a community determined not to allow the return of predatory practice internally and externally? Will the fates of African and Asian peoples converge or diverge? How about the future relationships between Afrasia and the rest of the world? Exploring these questions using multiple disciplines, this book will be of interest to professional researchers and graduate students in IR and Afro-Asian relations, as well as Asian and African area studies, demography, geography, history, development economics, anthropology, language education, and religious studies. The Open Access version of this book, available at <http://www.taylorfrancis.com>, has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license.

**Exploring the Rhetoric of International Professional Communication** Carl R. Lovitt,Dixie Goswami,2020-11-26 Presents a collection of fourteen essays that responds to the need for a more rhetorical conception of professional communication as an international discipline. This book challenges the adequacy of relying on preconceived notions about the factors that determine discourse in international professional settings.

*Out-Innovate* Alexandre "Alex" Lazarow,2020-04-07 The new playbook for innovation and startup success is emerging from beyond Silicon Valley--at the frontier. Startups have changed the world. In the United States, many startups, such as Tesla, Apple, and Amazon, have become household names. The economic value of startups has doubled since 1992 and is projected to double again in the next fifteen years. For decades, the hot center of this phenomenon has been Silicon Valley. This is changing fast. Thanks to technology, startups are now taking root everywhere, from Delhi to Detroit to Nairobi to Sao Paulo. Yet despite this globalization of startup activity, our knowledge of how to build successful startups is still drawn primarily from Silicon Valley. As venture capitalist Alexandre Lazarow shows in this insightful and instructive book, this Silicon Valley gospel is due for a refresh--and it comes from what he calls the frontier, the growing constellation of startup ecosystems, outside of the Valley and other major economic centers, that now stretches across the globe. The frontier is a truly different world where startups often must cope with political or economic instability and lack of infrastructure, and where there might be little or no access to angel investors, venture capitalists, or experienced employee pools. Under such conditions, entrepreneurs must be creators who build industries rather than disruptors who change them because there are few existing businesses to disrupt. The companies they create must be global from birth because local markets are too small.

They focus on resiliency and sustainability rather than unicorn-style growth at any cost. With rich and wide-ranging stories of frontier innovators from around the world, Out-Innovate is the new playbook for innovation--wherever it has the potential to happen.

**Innovation in Africa** Fernando dos Santos,2024-01-18 This book surveys IP and innovation policies in Africa's past and present, providing frameworks and measures that will help Least Developed Countries (LDCs) in Africa. Its objective is to facilitate technological learning, accelerate absorption and adaptation fit to an African context, and catapult African LDCs down the road of innovation.

**Inside the Invisible Cage** Hatim Rahman,2024-09-03 This book examines how organizations' use of algorithms is reconfiguring our understanding of control for millions of high-skilled workers who use online labor market platforms (e.g., Upwork, TopCoder, Gigster) to find their work. The book investigates how algorithms enable platforms to control workers within an environment in which organizations embed the rules and guidelines for how workers should behave in opaque algorithms that shift without providing notice, explanation, or recourse for workers--

The Farthest Place Bernd Herzogenrath,2012 The first critical anthology of an important and singular contemporary composer

*Writing Indian, Native Conversations* John Lloyd Purdy,2009 By revisiting some of the classics of the genre and offering critical readings of their distinctive qualities and shades of meaning, Purdy celebrates their dynamic literary qualities. Interwoven with this personal reflection on the last thirty years of work in the genre are interviews with prominent Native American scholars and writers (including Paula Gunn Allen, Simon Ortiz, Gerald Vizenor, Sherman Alexie, and Louis Owens), who offer their own insights about Native literatures and the future of the genre. In this book their voices provide the original, central conversation that leads to read.

**China-Africa and an Economic Transformation** Arkebe Oqubay,Justin Yifu Lin,2019 This volume considers China-Africa relations in the context of a global division of labour and power, and through the history and experiences of both China and Africa. It examines the core ideas of structural transformation, productive investment and industrialization, international trade, infrastructure development, and financing.

*Move or Die* Chris Carlisle,2022-07-19 "... (the) lessons, words, vision, and inspirational stories not only impacted me in the NFL, but as a man. I am grateful for his significance in my life... we either 'move' or we 'die.'"—Russell Wilson, NFL Quarterback Chris Carlisle, former Super Bowl Champion Performance Coach, has written a book that blazes a clear path from where you presently are to where you expect to be. There are two kinds of people in the world: those who are stuck and those who are moving towards accomplishing their grandest dreams. Which one are you? On one hand, there are people who

became stuck behind life's barriers and eventually stagnated because they had no idea how to move on. Without a plan to move forward, these people will eventually face their professional death. On the other hand, there are people who were confronted with similar issues but had the tools to find a way to continue moving towards their dreams and goals. They kept on moving down the line, and so can you. Chris's ideas come from his own experience and work shaping the ideals of the highly motivated. From dealing with his own hardships to helping others battle through intense competitions, Carlisle has found a way to break through barriers. This book helps paint the picture that great things are being done by common people. Why not you? Have you been told you weren't good enough? Have you been pigeonholed in a job? Are you watching people live the life you know was meant for you? Step by step, Move or Die will put in motion a simple plan to move forward in your life, including: Understanding who you are and where you want to be Recognizing that the "grind" is not a bad thing, but essential to being successful Realizing the power in being a non-linear thinker And much more! Everything that you have always hoped you could be is not just a pipe dream—it can be a reality. You just have to keep moving.

From pioneers like Brownie King and Paul Lewis of Johnson City to former national champions Joe Lee Johnson of Chattanooga and L.D. Ottinger of Newport, East Tennessee has produced many of NASCAR's great drivers. The region is home to one of the world's largest sports stadiums in the Bristol Motor Speedway, but NASCAR also made regular visits to other area tracks. Whether the surface is red clay, asphalt or brushed concrete, East Tennessee still boasts some of the world's fastest, most competitive racing. Join author and racing insider David McGee as he presents a vast array of colorful characters whose passion fueled a sport that has gone from primitive to prime time.

Lehner, 2016-06-23 Routledge Handbook of Social and Sustainable Finance brings together an international cast of leading authorities to map out and display the disparate voices, traditions and professional communities engaged in social finance activity.
