Oxford Handbook of Critical Care Nursing Fiona Creed, Jessica Hargreaves, 2016-01-28 Focused on the practical issues of nursing care and nursing procedures, the Oxford Handbook of Critical Care Nursing has been written by nurses, for nurses

Reflecting current best practice, this handbook is an easily accessible and evidence-based guide for all levels of nursing staff working in critical care environments. It provides the nurse at the bedside with the answers to day-to-day problems experienced when caring for critically ill patients, and is also a guide to some of the less commonly encountered issues. Now including more detail on the psychological issues facing critically ill patients and further information on the intricacies of receiving and transferring critically ill patients to and from critical care environments, this handbook is a concise, practical, evidence-based guide for nursing professionals caring for critically ill patients

**Functional Assessment for Adults with Disabilities** National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Health Care Services, Committee on Functional Assessment for Adults with

Disabilities,2019-08-31 The U.S. Social Security Administration (SSA) provides disability benefits through the Social Security Disability Insurance (SSDI) and Supplemental Security Income (SSI) programs. To receive SSDI or SSI disability benefits, an individual must meet the statutory definition of disability, which is the inability to engage in any substantial gainful activity [SGA] by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months. SSA uses a five-step sequential process to determine whether an adult applicant meets this definition. Functional Assessment for Adults with Disabilities examines ways to collect information about an individual's physical and mental (cognitive and noncognitive) functional abilities relevant to work requirements. This report discusses the types of information that support findings of limitations in functional abilities relevant to work requirements, and provides findings and conclusions regarding the collection of information and assessment of functional abilities relevant to work requirements.
