Encyclopedia of Ethical Failure Department of Defense,2009-12-31 The Standards of Conduct Office of the Department of Defense General Counsel's Office has assembled an encyclopedia of cases of ethical failure for use as a training tool. These are real examples of Federal employees who have intentionally or unwittingly violated standards of conduct. Some cases are humorous, some sad, and all are real. Some will anger you as a Federal employee and some will anger you as an American taxpayer. Note the multiple jail and probation sentences, fines, employment terminations and other sanctions that were taken as a result of these ethical failures. Violations of many ethical standards involve criminal statutes. This updated (end of 2009) edition is organized by type of violations, including conflicts of interest, misuse of Government equipment, violations of post-employment restrictions, and travel.

Who Will Be the Next President? Alexander S. Belenky,2016-11-15 This book is open access under a CC BY 4.0 license. This book addresses the peculiarities of the current presidential election system not yet addressed in other publications. It argues that any rules for electing a President that may have a chance to replace the current ones should provide an equal representation of states as equal members of the Union, and of the nation as a whole. This book analyzes the National Popular Vote plan and shows that this plan may violate the Supreme Court decisions on the equality of votes cast in statewide popular elections held to choose state electors. That is, the National Popular Vote plan may violate the

Equal Protection Clause of the Fourteenth Amendment. The book proposes a new election system in which the will of the states and the will of the nation as a whole are determined by direct popular elections for President and Vice President in the 50 states and in D.C. This system a) would elect President a candidate who is the choice of both the nation as a whole and of the states as equal members of the Union, b) would let the current system elect a President only if the nation as a whole and the states as equal members of the Union fail to agree on a common candidate, and c) would encourage the candidates to campaign nationwide. The second edition has been updated to include a proposal on how to make established non-major party presidential candidates and independent candidates welcome participants in national televised presidential debates with the major-party candidates.

Neptune's Inferno James D. Hornfischer, 2012-03-06 "A literary tour de force that is destined to become one of the . . . definitive works about the battle for Guadalcanal . . . [James D.] Hornfischer deftly captures the essence of the most pivotal naval campaign of the Pacific war."—San Antonio Express-News The Battle of Guadalcanal has long been heralded as a Marine victory. Now, with his powerful portrait of the Navy's sacrifice, James D. Hornfischer tells for the first time the full story of the men who fought in destroyers, cruisers, and battleships in the narrow, deadly waters of "Ironbottom Sound." Here, in stunning cinematic detail, are the seven major naval actions that began in August 1942, a time when the war seemed unwinnable and America fought on a shoestring, with the outcome always in doubt. Working from new interviews with survivors, unpublished eyewitness accounts, and newly available documents, Hornfischer paints a vivid picture of the officers and enlisted men who opposed the Japanese in America's hour of need. The first major work on this subject in almost two decades, Neptune's Inferno does what all great battle narratives do: It tells the gripping human stories behind the momentous events and critical decisions that altered the course of history and shaped so many lives. Praise for Neptune's Inferno "Vivid and engaging . . . extremely readable, comprehensive and thoroughly researched."—Ronald Spector, The Wall Street Journal "Superlative storytelling . . . the masterwork on the long-neglected topic of World War II's surface ship combat."—Richard B. Frank, World War II "The author's two previous World War II books . . . thrust him into the major leagues of American military history writers. Neptune's Inferno is solid proof he deserves to be there."—The Dallas Morning News "Outstanding . . . The author's narrative gifts and excellent choice of detail give an almost Homeric quality to the men who met on the sea in steel titans."—Booklist (starred review) "Brilliant . . . a compelling narrative of naval combat . . . simply

superb.”—The Washington Times
